SOLUTIONS FROM FABRICS THAT STRETCH

THE SOLUTION BOOK

At Stretch Shapes, we're passionate about creating beautiful experiences. There's a lot of ways this passion articulates itself. Many of our team members were producing events before they came here. Most of us have been behind the scenes in one respect or another for quite some time. Because of this passion, we all found our way to the Stretch Shapes team — where we're known for passionately producing outstanding event décor.

We got our start in stretch fabric when our founder, Niko, started using it for décor at his events. He had an event production company before Stretch Shapes, and was drawn to stretch fabric because of its versatility. As he used it more and more, he felt there was an opportunity to create a higher quality product. That passion for quality is what led to the birth of our company, and has guided us ever since.

As our company has grown, our capabilities have grown with it. We have a highly skilled creative design team that works in the latest graphic and structural design platforms. We have a team of highly skilled sewers with decades of combined experience. When it comes to precision, our patterning department brings it to the table. Our aluminum fabrication department is made up of innovators and masters of their craft. We utilize the best tools available for producing our product, such as dye sublimation printing, the best Juki sewing machines in the industry, and our Autometrix Radian CNC fabric cutter. We have a highly trained sales and service department that strives every day to ensure we provide the best advice and service to our valued clients.

It's our passion that drives us—our passion for beauty, our passion for service, and our passion for people. We can't wait to put that passion to work for you.

BORDERLESS PROJECTION SCREENS

Welcome to the projection screen of the future. Precision made using our exclusive IFR blackout projection screen material and our own twist on SEG, Stretch Shapes Borderless Projection Screens are the ultimate wrinkle and bezel-free projection surface available —no matter how big a screen you envision. With no frame visible, our Borderless Projection Screens give your audience a truly spectacular view, free from visual distraction.

Our SEG extrusions are custom mounted to the back of our square tube frames, giving you a Borderless Projection Screen that is incredibly easy to install. Precise edge with zero bezel.

- Customizable to your specifications.
- Exclusive IFR blackout fabric prevents shadowing.
- Frame and fabric pack-up small for transport and storage.

BORDERLESS GRAPHIC PANELS

Borderless Graphic Panels provide the large and wrinkle/bezel-free surface you need with ultra clean edges that go on in a snap. You can create custom printed SEG fabric backdrops in the size and shape of your choice. Regardless of the size, our fabrication team can construct a heavy-duty aluminum frame for your printed panel that's easy to install and performs to perfection.

- Silicon Edge Graphics (SEG) eliminate the border and create a contemporary large-scale graphical experience.
- The stout frames can be re-skinned and reused.
- These premier large-scale branding tools have multiple uses! They can be used for stage backdrops, summits, conferences, brand activation, product launches, corporate meetings, stage sets, backdrops, trade show booth design, retail design, trade show booth walls, training seminars, room dividers, pop-up church walls, church stage design, retail design, and room partitions.

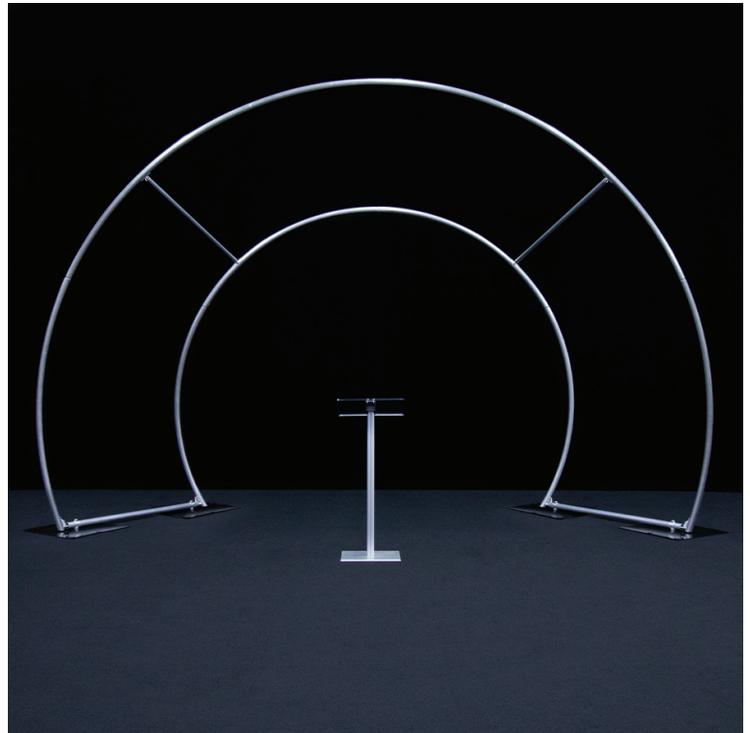

EVENT ARCHES

Stretch Shapes' Event Arches are one of the most practical and versatile products we've manufactured. Event Arches have a contemporary aesthetic, durable construction, and are easy to set up. They're perfect solutions for any event. From a festival event entrance to a stage design element, our Event Arches can be designed for a variety of needs that are in high-demand for today's live-event industry.

Event Arches are typically used for stage framing design, festival entrances, trade show booth design, brand activations, product launches, weddings, stage sets, special event entrances, church stage design, tunnel passageways, and more!

- Frame pieces are clearly labeled making assembly intuitive and easy.
- A team of 2-4 people can complete setup in 15 minutes to 1 hour depending on the arch style.
- Arches are engineered for an efficient setup/tear down.
- Minimal tool requirements: typically, a ladder and screwdriver.
- Arches are self-supporting with minimal need for additional weight. No ground-invasive staking procedure needed.

“The team at Stretch Shapes was SUPERB! Absolutely top notch custom solutions and hands-on customer experience through every touch point of the process. As both a Creative Director and Producer, the most important factors of choosing a vendor are (1) costs (2) turn-around time or time-frame and (3) quality. Stretch Shapes nailed all three — and that rarely happens!”

-Sheri Zane, Zane + Partners Productions

SHADE STRUCTURES

When you need an enormous custom Shade Structure for a major music festival, want a unique outdoor social space at a large corporate event, or require shading that tucks nicely into a smaller gathering space, Stretch Shapes has you covered. Both eye-catching and functional, our Shade Structures are the perfect way to design unique, brandable, and useable aesthetics.

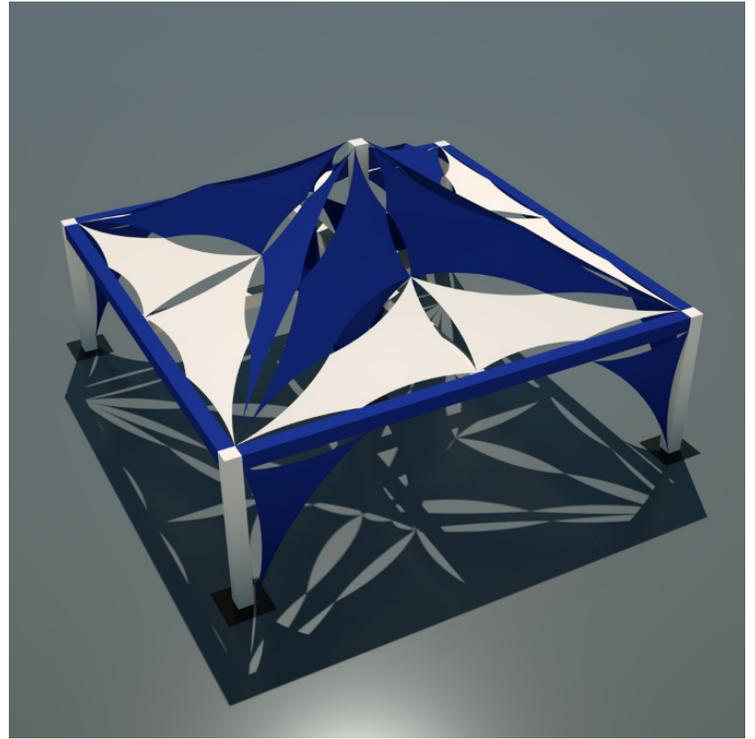

- Made with high performance IFR Stretch Fabric.
- Installation service available upon request.
- Choose from 16 fabric colors or dye sublimation for unique colors & branding.

The Stretch Shapes team stands ready to help you design a stunning custom Shade Structure. We offer more than 10 standard designs, customizable with your choice of fabric colors or dye sublimation branding. With Stretch Shapes Shade Structures, the sky is the limit!

“Stretch Shapes does an incredible job setting the aesthetic for your event - you’re in good hands! I’ve seen their installations at a variety of concerts and am always impressed.”

-Adam Bourget

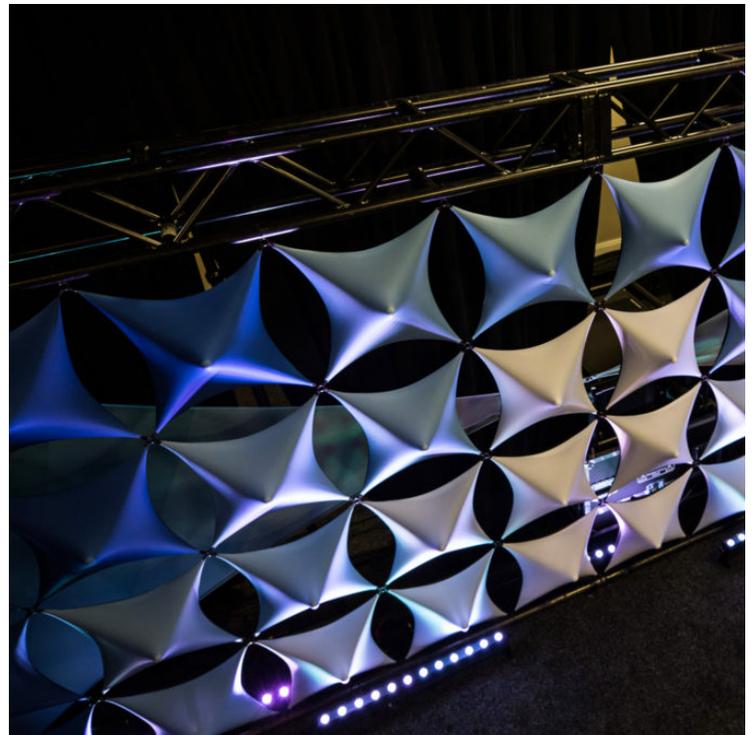

PANEL WALL TILES

Our elegant Panel Wall Tiles are your perfect medium for creating an impressive stage backdrop or permanent installation. Customizable with dye sublimation printing or crafted in our brilliant white or solid colors, they will also produce amazing and dramatic visual effects with stage lighting.

- Available in 5 Shapes: Triangles – Squares – Rectangles – Hexagons – Diamonds
- Easily mount on box truss or pipe & base systems.
- Complimentary grid pre-assembly.
- Spring-loaded gate rings included.
- Designed to conveniently fit common system sizes.
- Customize your grid with custom inserts that can include projection screens or printed pieces.

- Precision manufactured with Stretch Shapes' CNC cutting system.
- Flawless straight edges.
- Corners finished with discrete 1/2" webbing tabs.
- Crafted from our Premium IFR Stretch Fabric.

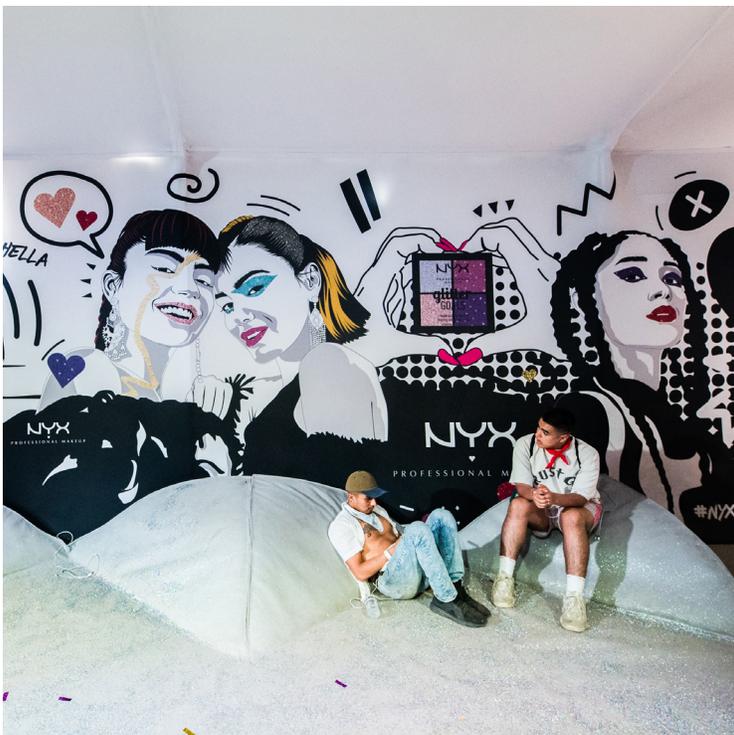

FEATURED IMAGES-

TENT LINERS

Stretch Shapes Tent Liners expand the universe of what's possible in aesthetic design within temporary structures. Whether you want to create the experience of stepping into a unique environment or need a polished and contemporary way to cover exposed framing and wires, these custom solutions allow you to enhance the live-event atmosphere within a creative design you envision.

- Experienced Stretch Shapes designers and world-class install teams are with you from start to finish.
- Fabric is reusable and packs down small for easy shipping and storage.
- Made with high performance IFR Stretch Fabric.
- Available in 16 colors, or customizable with dye sublimation printing in any Pantone matching colors.

Tent Liners by Stretch Shapes: This refined and efficient solution for lining tents and temporary structures has revolutionized what was once an imperfect part of live-event aesthetic design.

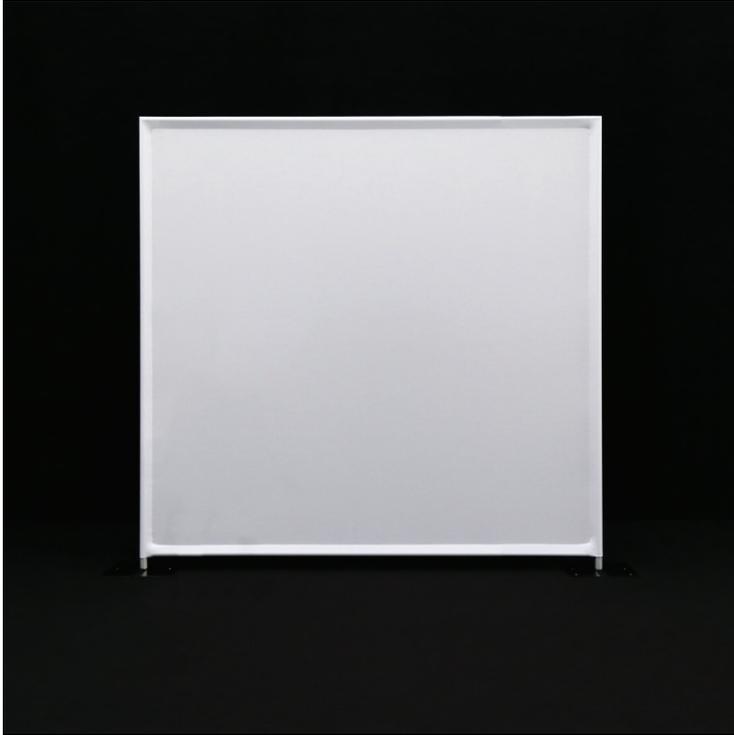

“Hats off to Stretch Shapes! Their attention to detail and help with some tight time lines has been exceptional. I can recommend [their] team 100%. Keep up the good work!”

-Adam Hughes, AV Strategies

QUICK WALLS

Quick Walls are one of the most innovative products Stretch Shapes offers. Integrate this solution into your visual design as a modern room divider, large scale backdrop, or massive projection wall; our Quick Walls are highly versatile and can be used for a variety of functions.

Stretch Shapes Quick Walls are an excellent solution for red carpet events, step and repeat backdrops, or large-scale event branding; the sky is the limit. Add creative lighting for brilliant effects.

- Quick and simple assembly in just minutes.
- Anodized aluminum pipe and base system.
- Compact system for easy shipping and storage.
- Available in standard 10' x 10', 10' x 20', 10' x 30' or larger custom sizes. Max height is 12'.

PRINTED QUICK WALLS

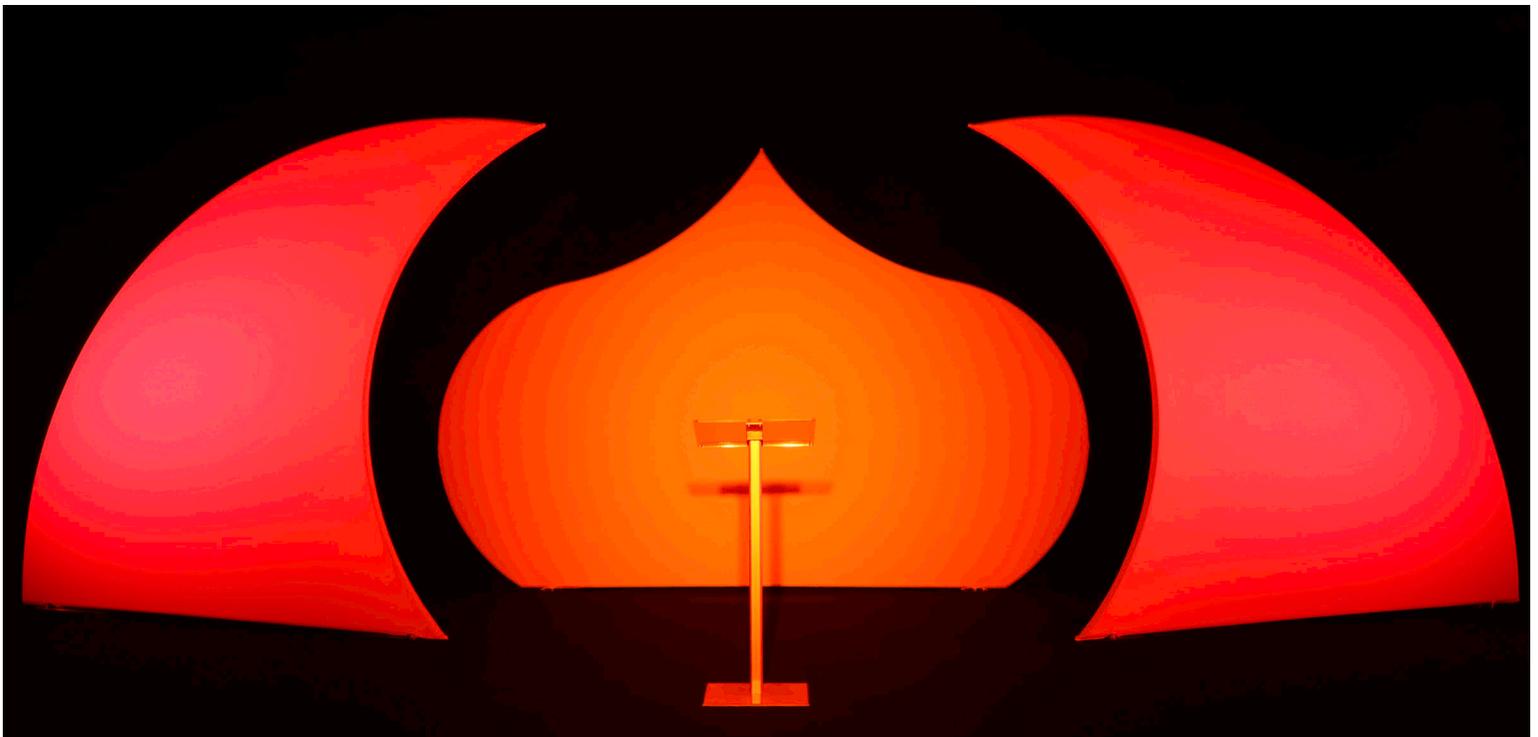

- High resolution printing provides photo realistic graphics
- Pantone color matching available
- Flawless graphics free of warping

2D FORMS

Our 2D Forms are the perfect go-to option for easily creating unique stage designs. With over 200 shapes and sizes to choose from, these Stretch Shapes products provide a variety of ways to make your visual display dynamic and striking. 2D Forms provide a brilliant medium to print your brand or event theme. Add stage lighting to customize on set and/or add the ultimate wow factor by using them as your projection mapping surface.

- Anodized 1.5" aluminum tubing bolts together in minutes.
- Aerial or ground supported options available for any shape or size.
- Pillow Case Style Skin with secure-close zipper at bottom.
- System breaks down small for easy transport and storage.
- CAD files available to pre-setup video projection mapping displays.

PRINTED 2D FORMS

Branding is everywhere right now. Choose to have your 2D Form printed on using our dye-sublimation printing process to create a unique branded piece that could be the focal point of your trade show or event.

CUSTOM PROJECTS

From our fabrication team to our sewers that hand craft each and every product we offer, our team here at Stretch Shapes is ready to provide you with the services to complete your next custom project. As you begin to launch your project, the team at Stretch Shapes is structured to pick up wherever you are in your creative process.

CUSTOM PROJECTS WITH STRETCH SHAPES-

We are a team of fabricators, sewers, creative designers and engineers who are excited about bringing ideas to life. Whether you're working with a paper sketch or a finished CAD file, our goal is to provide a finished product that will exceed all expectations. Your Stretch Shapes Relationship Manager will work with you to understand the intent of your project, where it is going to be installed, the environment it's going to be used in, your budget and timeline of event(s). Collaboration and open lines of communication are important for us to determine all materials needed in order to create a completed mock-up for your review.

- Create one-of-a-kind video mapping surfaces for your next event.
- Custom branded structures for corporate meetings, product launches, or retail installation.
- Build massive borderless projection screens for nearly any size.
- Quotes will accurately describe all items, including delivery options.
- Our 3D design team will provide a mock-up of your project or idea.
- Stretch Shapes can print on any portion of your custom project.
- Use your designs or have our talented in-house designers create for you.
- Massive in-house Autometrix CNC fabric cutter to ensure accuracy and consistency.

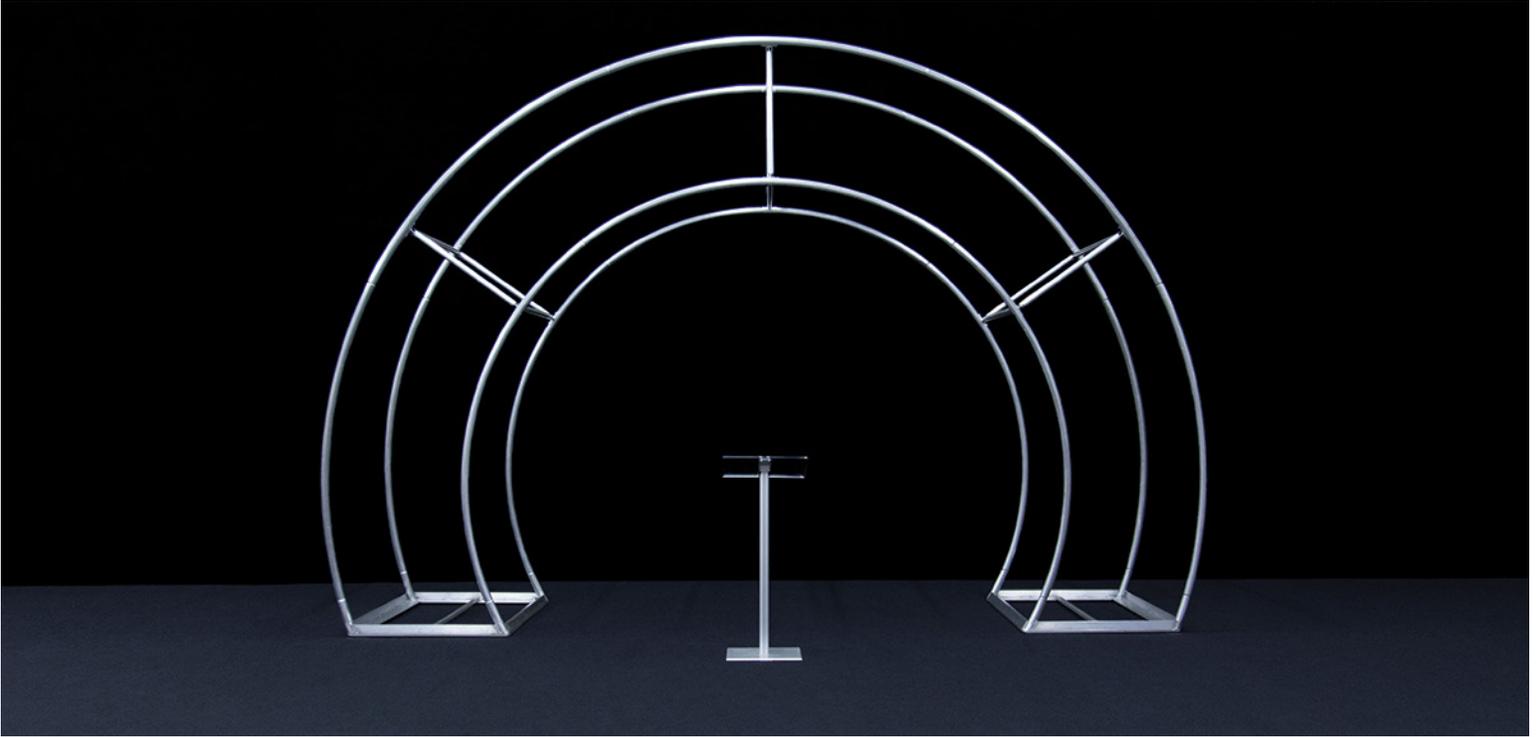

“The team with Stretch Shapes is A+ all the way. We have been working with them for years and they have never missed a deadline and have always made us look amazing.”

-RJ Vida, The Production Crew

FABRICATED SYSTEMS

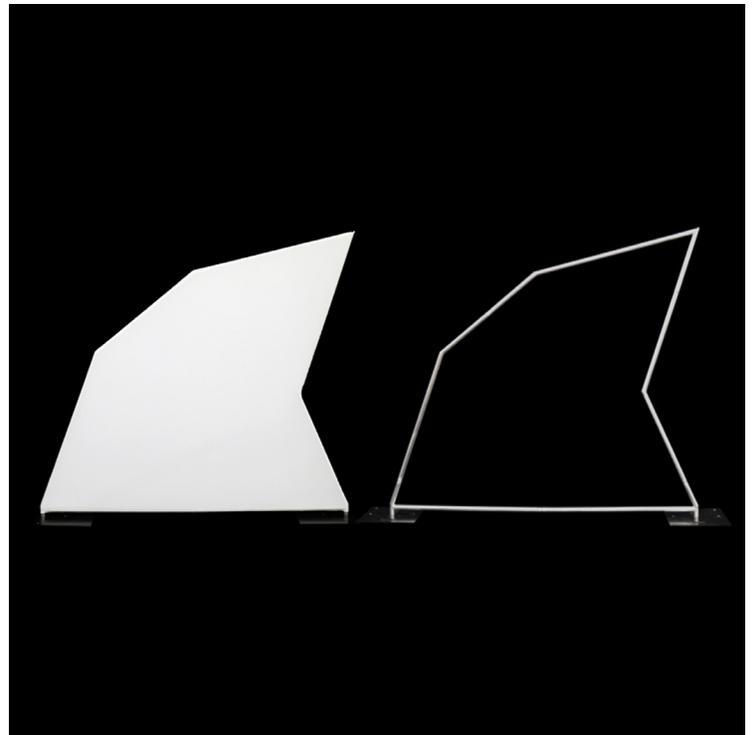

Stretch Shapes is primed and ready to provide you with solutions to enhance your event. Our multi-structure systems and expertise in stretch fabric allow us to design a product that will work best for you, without sacrifices. Whether it's an intricate video mapping surface, screen surround, custom printed shapes or special event structure, our team is ready to match your needs with our solutions. Each of our systems—Bezel Free SEG and 360 Pillow Case—has been rigorously tested to withstand the wear and tear of a live event and to work perfectly with fabrics that stretch.

360 PILLOW CASE SYSTEM-

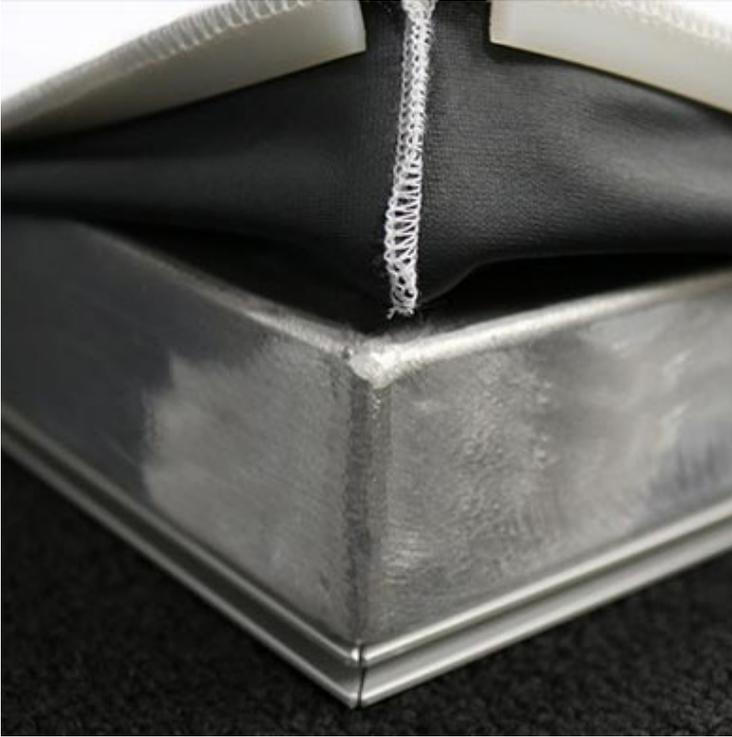

Round edges provide little to no bleed off which is perfect for projection mapping.

- Create 2D shapes and walls of nearly any shapes or size.
- Great for stage decorations, lighting surfaces, and printed backdrop structures.
- Looks the same from both sides.

“The company I work for has worked with Stretch Shapes twice now and will continue to do so in the future. Justin was great at expediting our order for an event and even overnighted us something extra last minute. **They are very professional and everything we’ve ordered is easy to put together and looks amazing!**”

-Marsha Schick, Amazing Facts

BEZEL FREE SEG SYSTEM-

Square tube frames with SEG extrusions mounted on the back to provide a bezel-free surface.

- Perfect for projection or printed surfaces.
- Blackout material used to prevent frame shadowing or light passing through.
- Ground or aerial supported.

TRUSS WRAP SCREENS

Our Truss Wrap Projection Screens mount over the top of your existing box truss or triangle truss frame so you're able to achieve nearly any size projection screen you need, without having to purchase additional equipment. All screens are custom built, so nearly any size option can be achieved. Stretch Shapes can design a Truss Wrap Screen to fit on nearly any size truss, including 12" box truss, 20.5" box truss and any other triangle truss or box truss you have. There's no limit to the segment lengths we can build a cover for. Our screens work in conjunction with your existing frame and are engineered to provide a flush mount with a full fabric wrap all the way around back.

- Achieve large, flawless, wrinkle-free surfaces.
- Stretch fabric is easy to handle and install.
- Create perfect, wrinkle-free surfaces to project onto.
- Pick points secure fabric to your truss.

- Fabric folds up small and lightweight, allowing for easy transportation.
- We build your fabric screen to the dimensions of your truss structure.
- Can be manufactured with openings for aerial rigging or ground supported leg openings.
- Seamless up to 11' in height x limitless length.

“We have reached out to Stretch Shapes more than once with large orders that we needed in just a couple days. Not only is their response time impressive, but our shipments always arrive on time, as promised with no issues... not to mention the quality of their products are the best we’ve seen. If you want it done right, quickly and with no stress... don’t hesitate to use these guys!”

-Kris Nardini, Platinum Productions

PRINTED TRUSS WRAP SCREENS

Brand your screen with our dye sublimation printing process.

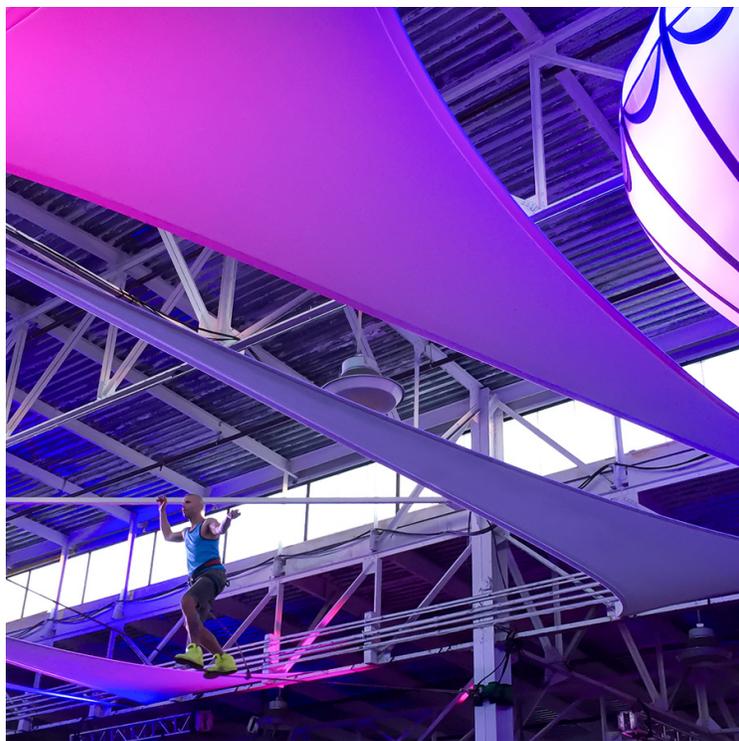

- Create brand awareness by printing your Truss Wrap Projection Screens.
- Great way to achieve massive graphic walls for your event.
- Design perfectly aligned step and repeat walls.

FLAT PANEL SAILS

We take great pride in our flagship product, a popular solution for designing innovative visual displays using stretch fabric. Create unique ceiling installations or design enchanting backdrops. Use as a bold stand-alone piece or add illumination and layering to achieve stunning effects. Whether you're printing or just adding lighting, these versatile panels will allow you to create a visual masterpiece every time.

Stretch Shapes is the only company using a proprietary process to print graphics onto stretch fabric Flat Panel Sails, letting you incorporate any design or image, distortion-free, into your visual display. These craftsman quality displays are finished with robust two-ply stretch hem borders and your choice of grommeted or fabric loop corners for refined presence and increased life span.

- Printable with photorealistic crisp and clean graphics.
- Uniquely engineered to prevent warping or distortion.
- Available in 16 stock or any custom Pantone color.
- Hundreds of contemporary shapes and sizes.

“Stretch Shapes has always been there when we need them. Working in the event industry we always have clients looking to add things last minute and they have always delivered even on the tightest of delivery times. Even with fast delivery, they never skimp on quality or customer service.”

-Midwest Event Solution

PRINTED FLAT PANEL SAILS

Printed Flat Panel Sails are a contemporary solution for temporary or permanent backdrops.

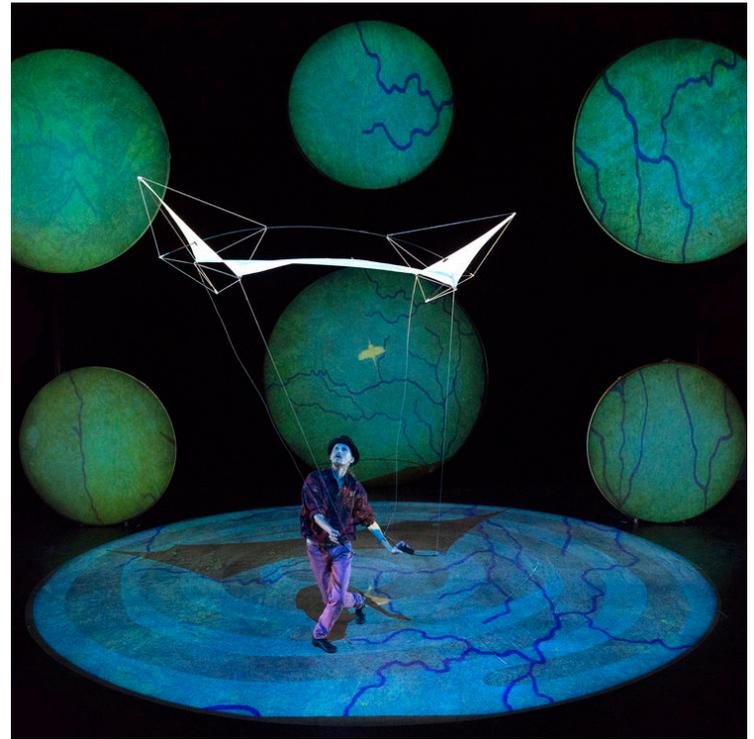

- Artistic branding that will enhance the look and feel of your event.
- Create modern ceiling pieces or interior design.
- Stand out at your event!

FULL MOONS

Our Full Moon stretch circles are the cleanest tension fabric circle screens on the market today. With multiple rigging options available, the possibilities are endless. Our screens are a perfect circle, so you're able to create beautiful scenes using video mapping and stage lighting effects with our vertical rigging option. Our horizontal rigging option is great in architectural installations as a light diffuser or ceiling décor. Full Moon circle screens are available in 6 sizes, from 4' diameter, all the way up to a 12' diameter. These multi-purpose stretch screens fit the included aluminum tube frames with no wrinkles in the tension fabric. The stretch fabric we use slips over the frame, and zips into place like a pillowcase in a matter of seconds.

- Seamless faced 2 ply pillowcase installs quickly. 12' Full Moon features one discreet seam.
- Use as a projection screen or light diffuser.
- Aluminum alloy frame is included in price.
- Low-profile zipper discreetly closes on top edge.
- Quick click feature on frame tubing allows for quick install.

- Satin anodized finish on framing.
- Choose vertical or horizontal rigging mounts.
- Premium IFR Stretch Fabric
- Passes NFPA 701, CSFM Title 19 & ASTM E84

“Stretch Shapes and Justin were absolutely wonderful to work with. I was definitely a client who never knew exactly what we wanted until the product was in our hands. They were **so patient and helpful!** Their quote was literally half the price of any other stage fabrication group I could find. They even looked for ways to make the setup of our staging faster and easier just to be helpful! I would **definitely recommend them to anyone!**”

-Adam Millett, BYU

PRINTED FULL MOONS

Create beautifully branded circle screens by having Stretch Shapes print on any size of our Full Moon circle screens. Whether you're branding or creating an artistic piece for your stage décor, printing on our Full Moon circle screens is an excellent opportunity to personalize your event.

TRUSS COVERS

Stretch Shapes is the nation's #1 choice by AV and Live Design industry professionals for premium Truss Covers. Also known as truss socks, sleeves or wraps, our covers are precision made to fit and work just right while never slipping out of place.

PULL OVER TRUSS COVERS-

Stretch Shapes' Premium Pull Over Truss Covers glide over truss like a sock, pulling from one end to the other. The tension has been calculated so that they're resistant to catching on aluminum burrs that can show up on older trussing, yet stay securely in place, even with long term usage.

HOOK & LOOP TRUSS COVERS-

These covers are the ideal solution when covering truss that you can't use a pull over style with due to access issues. As an additional benefit, the hook and loop allows you to create your own passages for cables and rigging. Simply pull apart the hook and loop closure, slide your cables through and close it back to keep a clean and wrinkle free look.

“Excellent. Quality is flawless. Price is on the honest, realistic and upfront. Turn around is turn key. I’ve been in the event business 20 years and these guys are top shelf! Justin Thompson and Stretch Shapes [are] a great asset to my success!”

-Andrew Hahn, EDNY

TRUSS COVER ROLLS-

We understand that you don't always know how many or the length of truss segments you're going to need to cover. Our Truss Rolls allow organizations to keep covers in stock at all times and ready for any event that may pop up. When needed, you can quickly cover straight segments or circle truss by simply cutting the desired length required.

- America's #1 Premium IFR Truss Cover
- All IFR Truss Covers include a 1-year warranty & storage bag.
- AV and Live Design Professionals' choice for truss socks.
- Calculated stretch ensures they stay in place.
- Add internal LED lighting for stunning effects.
- Covers install easily and wrinkle-free every time.
- Choose from our bright white, bold black, or 14 other stock colors.
- Discrete hemmed border provides clean and beautiful look.
- Premium IFR stretch fabric
- Passes NFPA 701, CSFM Title 19 & ASTM E84
- Truss Covers hold all IFR ratings even after multiple washes.
- Fully customizable with Dye Sublimation printing.

PRINTED TRUSS COVERS

- Branded solutions that work for you
- Create unique directional markers or information posts
- Stand out at your next event with artistic truss covers

BASE/ CORNER COVERS

To complete a clean and finished look on your truss structure, Stretch Shapes offers a variety of corner and base covers including 90 degree 2-way, 90 degree 3-way, 90 degree 3-way T, 4-way T junctions, and baseplate covers.

- Works with Hook & Loop or Pull Over Box Truss covers.
- Convenient secure hook & loop closure.
- Choose from our bright white, bold black, or 14 other stock colors.
- Create stunning effects by adding internal LEDs.

- Discrete 1" hemmed border for strength.
- Premium IFR stretch fabric
- Passes NFPA 701, CSFM Title 19, & ASTM E84
- Easy to care for, washable, & wrinkle-free.

PROJECTION SCREENS

Stretch Shapes' Projection Screens provide a unique solution for large or small video displays in 16:9 or 4:3 formats. Made from high performance stretch fabric that allows for bright front or rear presenting. Simply put, our stretch fabric is the perfect material for projection screens. Whether you're looking for rear projection screen material or front projection, our stretch fabric projection screens are the best. Define your look by choosing 4, 8, 10, or 14 rigging points around the perimeter.

IMAGE COURTESY OF DALLAS THEATER COMPANY

- Unique surface for presenting from front or rear.
- Brightest white fabric on the market.
- Available in 11 point-to-point size options.
- Two-ply hemmed borders for stability.
- Standard nylon & grommet rigging points.
- 5.9 oz. IFR stretch fabric

- Passes NFPA 701, CSFM Title 19, & ASTM E84
- Seamless up to 12'.
- Will stretch to size listed.
- Can stretch +/- 5% if desired.
- Easy to care for, washable & wrinkle-free.

PIPE & BASE COVERS

In our Pipe & Base shopping center, you will find an assortment of covers that perfectly fit the most commonly used sizes of base plates and pipe lengths. These are offered in black or white IFR high performance stretch fabric. Bring your clients' desire for perfection to the level they envision by turning those uprights from tacky to terrific.

BASE PLATE COVERS-

- Available in black or white.
- Encases plate with "pillow" style cover.
- Installed in moments & secured with tension.
- Two-ply stretch hemmed opening for stability.

ACCESSORIES

Stretch Shapes offers a variety of accessories to help assist you with your rigging and assembly needs. Choose from our collection of useful and tested accessories to help you get the most of your Stretch Shapes products.

FEATURED IMAGES-

WORKING WITH STRETCH SHAPES

At Stretch Shapes, we pride ourselves on creating solutions from fabrics that stretch for AV and live event professionals. We understand that you need creative solutions and each project has different challenges that need to be addressed. Our team of sewers, fabricators, designers and creators are here to help you wherever you are in your creative process.

QUICK LEAD TIMES

If an item is listed as in stock and the order is received by noon PST (3 p.m. EST), it usually ships the same day or will ship within 24 hours guaranteed. If an item is listed with a manufacturing lead time, it will ship in 1-2 business days.

RUSH OPTIONS

We understand that events often need extra items at the last minute. Stretch Shapes is prepared to handle nearly all your last-minute requests with several rush options available. Give us your challenge and we will work towards a solution to ensure that your event is successful.

SIMPLE AND FREE DOMESTIC SHIPPING

We offer complimentary FedEx Ground shipping for all orders over \$100 to all the lower 48 states. Some exclusions apply for custom orders and framed goods. We regularly ship products to over 100 countries throughout the world via FedEx.

A WARRANTY YOU CAN COUNT ON

All Stretch Shapes fabric products are backed by an industry-leading 1-year limited warranty. This gives you peace of mind when ordering and reusing our fabric goods at your various events.

IFR FLAME SAFE

At Stretch Shapes, we use Inherently Flame Retardant (IFR) stretch fabric. Our fabric passes NFPA 701, CSFM Title 19, B1, ASTM E84 and CAN/ULC-S109-03 flame certifications. IFR fabrics are certified to retain their flame retardant characteristics even after repeated washing.
